*Faculty of Information and Communication Technologies, Department of Informatics*
-  **1<sup>st</sup> General Lyceum of Levadia**

## Languages

-  **Greek**      *Native*
-  **English**      *Proficiency*

## Skills

-  **Communication**  
I have strong communication skills acquired from activities such as my participation in the **Erasmus+** program. For this program, I worked for individual and group projects about the environment. To complete the program, we travelled to **Murcia, Spain**, where we presented our projects to other schools, exchanging ideas with the local students.
-  **Leadership**  
I was the elected **President** of the student council of my class in every grade of Lyceum. Also, at the 3<sup>rd</sup> grade, I was **secretary** of the student council of the school. This council was responsible for the organization of various **events** that strengthened our school's image and funded our 5-day trip of our class to **Sofia, Bulgaria**.

## Programming & Software

I have good programming knowledge in various programming languages (**C#, Java, Python, SQL**) for the design and development of **Web, Desktop** and **Android** applications.

I am experienced in developing web applications using **Angular 12** combined with **C#** on top of the **.NET Framework** and **Microsoft SQL Server**.

I mainly work as part of the team, according to the scrum-agile methodology, using tools such as Jira, SourceTree, Fork, GitHub etc.

Since 2021 I have been developing an **Android** application for a new fashion-related **startup**.

In 2020, I published my first Android application at the **Google Play Store**, named «**Movement Permit – SMS 13033**». The purpose of the app was to make easier the SMS sending for the essential movement permit during quarantine of Greece.
